Dear Phil,

Thanks for the clips on Shaheen's report.

That it is his is known in Memphis only.

While it received little attention I unloaded on him, in court, whence it got no attention, and outside, as saddled with a conflict of interest.

I also said he was part of the continuing cover-up based on his hiding files that were called for in my FOIA suit and had not been provided.

He'll be a success in the practise of law in Memphis!

He'll also be a scandal before this is all over.

So his name is not in or on the Report and it is pretended to be other than from his unit in the Deputy AG's office.

You people sure send your best to Washington!

But the clips help here. Many thanks.

Sincerely,
